From: Amy James
 Right Whale Ecology Program

Survey Date: 30 January 2023
Survey Number: CCS 982
Report Time: 30 January 2023 at 17:31

On Monday, 30 January 2023, the aerial team completed 16 track lines in Cape Cod Bay working from south to north. Beaufort ranged from 0 to 3, and weather ranged from haze to clear to gray. Survey effort was temporarily suspended to provide disentanglement support for the 2021 calf of #3720.

Table 1: Species Sighted

Species	Total Number	Species	Total Number
Atlantic White-Sided Dolphin	1	North Atlantic Right Whale	16
Fin Whale	4	Unidentified Fin or Sei Whale	1
Harbor Seal	1	Unidentified Large Whale	1
Minke Whale	2		

These observations are considered preliminary pending detailed analysis and quality control. Please do not reproduce this information without the permission of CCS and DMF.
